**EMERGENCY MEDICAL SERVICES  
PREHOSPITAL DO NOT RESUSCITATE (DNR) FORM**
**PURPOSE**

The Prehospital Do Not Resuscitate (DNR) Form has been developed by the California Emergency Medical Services Authority, in concert with the California Medical Association and emergency medical services (EMS) providers, for the purpose of instructing EMS personnel regarding a patient's decision to forego resuscitative measures in the event of cardiopulmonary arrest. Resuscitative measures to be withheld include chest compressions, assisted ventilation, endotracheal intubation, defibrillation, and cardiotonic drugs. This form does not affect the provision of life sustaining measures such as artificial nutrition or hydration or the provision of other emergency medical care, such as palliative treatment for pain, dyspnea, major hemorrhage, or other medical conditions.

**APPLICABILITY**

This form was designed for use in prehospital settings --i.e., in a patient's home, in a long-term care facility, during transport to or from a health care facility, and in other locations outside acute care hospitals. However, hospitals are encouraged to honor the form when a patient is transported to an emergency room. California law protects any health care provider (including emergency response personnel) who honors a properly completed request regarding resuscitative measures, including a Prehospital Do Not Resuscitate Form (or an approved wrist or neck medallion), from criminal prosecution, civil liability, discipline for unprofessional conduct, administrative sanction, or any other sanction, if the provider believes in good faith that the action or decision is consistent with the law and the provider has no knowledge that the action or decision would be inconsistent with a health care decision that the individual signing the request would have made on his or her own behalf under like circumstances. This form does not replace other DNR orders that may be required pursuant to a health care facility's own policies and procedures governing resuscitation attempts by facility personnel. Patients should be advised that their prehospital DNR instruction may not be honored in other states or jurisdictions.

**INSTRUCTIONS**

The Prehospital Do Not Resuscitate (DNR) Form must be signed by the patient or by the patient's legally recognized health care decisionmaker if the patient is unable to make or communicate informed health care decisions. The legally recognized health care decisionmaker should be the patient's legal representative, such as a health care agent as designated in a power of attorney for health care, a court-appointed conservator, or a spouse or other family member if one exists. The patient's physician must also sign the form, affirming that the patient/legally recognized health care decisionmaker has given informed consent to the DNR instruction.

The white copy of the form should be retained by the patient. *The completed form (or the approved wrist or neck medallion—see below) must be readily available to EMS personnel in order for the DNR instruction to be honored.* Resuscitation attempts may be initiated until the form (or medallion) is presented and the identity of the patient is confirmed.

The goldenrod copy of the form should be retained by the physician and made part of the patient's permanent medical record.

The pink copy of the form may be used by the patient to order an optional wrist or neck medallion inscribed with the words "DO NOT RESUSCITATE-EMS." The Medic Alert Foundation (1(888)755-1448, 2323 Colorado Avenue, Turlock, CA 95381) is an EMS Authority-approved supplier of the medallions, which will be issued only upon receipt of a properly completed Prehospital Do Not Resuscitate (DNR) Form (together with an enrollment form and the appropriate fee). Although optional, use of a wrist or neck medallion facilitates prompt identification of the patient, avoids the problem of lost or misplaced forms, and is strongly encouraged.

**REVOCATION**

In the absence of knowledge to the contrary, a health care provider may presume that a request regarding resuscitative measures is valid and unrevoked. Thus, if a decision is made to revoke the DNR instruction, the patient's physician should be notified immediately and all copies of the form should be destroyed, including any copies on file with the Medic Alert Foundation or other EMS Authority-approved supplier. Medallions and associated wallet cards should also be destroyed or returned to the supplier.

*Questions about implementation of the Prehospital Do Not Resuscitate (DNR) Form should be directed to the local EMS agency.*

**EMERGENCY MEDICAL SERVICES  
PREHOSPITAL DO NOT RESUSCITATE (DNR) FORM**

An Advance Request to Limit the Scope of Emergency Medical Care

I, \_\_\_\_\_, request limited emergency care as herein described.  
*(print patient's name)*

I understand DNR means that if my heart stops beating or if I stop breathing, no medical procedure to restart breathing or heart functioning will be instituted.

I understand this decision will **not** prevent me from obtaining other emergency medical care by prehospital emergency medical care personnel and/or medical care directed by a physician prior to my death.

I understand I may revoke this directive at any time by destroying this form and removing any "DNR" medallions.

I give permission for this information to be given to the prehospital emergency care personnel, doctors, nurses or other health personnel as necessary to implement this directive.

I hereby agree to the "Do Not Resuscitate" (DNR) order.

 Legally Recognized Health Care Decisionmaker's Relationship to Patient

*By signing this form, the legally recognized health care decisionmaker acknowledges that this request to forego resuscitative measures is consistent with the known desires of, and with the best interest of, the individual who is the subject of the form.*

I affirm that this patient/legally recognized health care decisionmaker is making an informed decision and that this directive is the expressed wish of the patient/legally recognized health care decisionmaker. A copy of this form is in the patient's permanent medical record.

In the event of cardiac or respiratory arrest, no chest compressions, assisted ventilations, intubation, defibrillation, or cardiotonic medications are to be initiated.

| <p><b>Completing POLST</b></p> <ul style="list-style-type: none"> <li>• Completing a POLST form is voluntary. California law requires that a POLST form be followed by healthcare providers, and provides immunity to those who comply in good faith. In the hospital setting, a patient will be assessed by a physician, or a nurse practitioner (NP) or a physician assistant (PA) acting under the supervision of the physician, who will issue appropriate orders that are consistent with the patient's preferences.</li> <li>• POLST does not replace the Advance Directive. When available, review the Advance Directive and POLST form to ensure consistency, and update forms appropriately to resolve any conflicts.</li> <li>• POLST must be completed by a health care provider based on patient preferences and medical indications.</li> <li>• A legally recognized decisionmaker may include a court-appointed conservator or guardian, agent designated in an Advance Directive, orally designated surrogate, spouse, registered domestic partner, parent of a minor, closest available relative, or person whom the patient's physician/NP/PA believes best knows what is in the patient's best interest and will make decisions in accordance with the patient's expressed wishes and values to the extent known.</li> <li>• A legally recognized decisionmaker may execute the POLST form only if the patient lacks capacity or has designated that the decisionmaker's authority is effective immediately.</li> <li>• To be valid a POLST form must be signed by (1) a physician, or by a nurse practitioner or a physician assistant acting under the supervision of a physician and within the scope of practice authorized by law and (2) the patient or decisionmaker. Verbal orders are acceptable with follow-up signature by physician/NP/PA in accordance with facility/community policy.</li> <li>• If a translated form is used with patient or decisionmaker, attach it to the signed English POLST form.</li> <li>• Use of original form is strongly encouraged. Photocopies and FAXes of signed POLST forms are legal and valid. A copy should be retained in patient's medical record, on Ultra Pink paper when possible.</li> </ul>  |                          |  |
| <p><b>Using POLST</b></p> <ul style="list-style-type: none"> <li>• Any incomplete section of POLST implies full treatment for that section.</li> </ul> <p><b>Section A:</b></p> <ul style="list-style-type: none"> <li>• If found pulseless and not breathing, no defibrillator (including automated external defibrillators) or chest compressions should be used on a patient who has chosen "Do Not Attempt Resuscitation."</li> </ul> <p><b>Section B:</b></p> <ul style="list-style-type: none"> <li>• When comfort cannot be achieved in the current setting, the patient, including someone with "Comfort-Focused Treatment," should be transferred to a setting able to provide comfort (e.g., treatment of a hip fracture).</li> <li>• Non-invasive positive airway pressure includes continuous positive airway pressure (CPAP), bi-level positive airway pressure (BiPAP), and bag valve mask (BVM) assisted respirations.</li> <li>• IV antibiotics and hydration generally are not "Comfort-Focused Treatment."</li> <li>• Treatment of dehydration prolongs life. If a patient desires IV fluids, indicate "Selective Treatment" or "Full Treatment."</li> <li>• Depending on local EMS protocol, "Additional Orders" written in Section B may not be implemented by EMS personnel.</li> </ul> <p><b>Reviewing POLST</b></p> <p>It is recommended that POLST be reviewed periodically. Review is recommended when:</p> <ul style="list-style-type: none"> <li>• The patient is transferred from one care setting or care level to another, or</li> <li>• There is a substantial change in the patient's health status, or</li> <li>• The patient's treatment preferences change.</li> </ul> <p><b>Modifying and Voiding POLST</b></p> <ul style="list-style-type: none"> <li>• A patient with capacity can, at any time, request alternative treatment or revoke a POLST by any means that indicates intent to revoke. It is recommended that revocation be documented by drawing a line through Sections A through D, writing "VOID" in large letters, and signing and dating this line.</li> <li>• A legally recognized decisionmaker may request to modify the orders, in collaboration with the physician/NP/PA, based on the known desires of the patient or, if unknown, the patient's best interests.</li> </ul> |                          |  |
| <p>This form is approved by the California Emergency Medical Services Authority in cooperation with the statewide POLST Task Force.<br/>For more information or a copy of the form, visit <a href="http://www.caPOLST.org">www.caPOLST.org</a>.</p>   |                          |  |
